EXECUTIVE SUMMARY

Why Leading Brands Choose Jaipur Tech Chat

With over 2.7 Billion active global users, WhatsApp is no longer just a chatting app—it is the world's most profitable customer acquisition, re-engagement, and conversational commerce channel. Jaipur Tech Chat provides a direct enterprise gateway to Meta's Cloud API.

CRUCIAL CAPABILITY	UNOFFICIAL TOOLS	JAIPUR TECH CHAT
Account Ban Risk	High (Permanently banned)	Zero Ban Risk (Official Meta API)
Messaging Capacity	Restricted (50–200/day)	Scales to 100k+ to Unlimited/Day
Interactive Buttons	Unavailable (Plain text)	Quick Replies, CTAs & Catalogs
Meta Green Tick	Not Eligible / Blocked	Full Verification Eligibility
System Reliability	Frequent QR disconnections	99.9% Uptime on Meta Servers

High-Velocity Broadcasts

Send targeted marketing announcements, promotions, and transactional messages directly to thousands of opt-in customers simultaneously.

Smart AI & Flow Automation

Qualify leads, answer repetitive FAQs, take orders, and resolve inquiries 24/7 without requiring manual agent intervention.

Unified Multi-Agent Inbox

Equip your customer support and sales teams with a single collaborative dashboard to respond, assign tickets, and close deals faster.

CRM & E-commerce Integrations

Connect seamlessly with Shopify, WooCommerce, CRMs, ERPs, and webhooks to trigger automatic order updates, OTPs, and abandoned cart alerts.

Enterprise Data Security & Global Cloud Infrastructure

Direct Tier-1 Meta WhatsApp Cloud integration ensuring banking-grade privacy and 99.9% uptime.

PLATFORM CAPABILITIES

End-to-End WhatsApp Marketing & Automation Suite

Explore the complete array of business-grade features built directly into Jaipur Tech Chat to drive revenue and streamline operations.

Broadcast & Analytics

Visual Flow Builder

Multi-Agent Live Chat

Broadcast Campaigns

Broadcast personalized rich-media messages (images, videos, PDF catalogs, CTA buttons) to thousands of customers instantly or on a scheduled calendar.

- ✓ Instant & Scheduled Delivery
- ✓ Media & Interactive Buttons
- ✓ Real-Time Delivery Tracking

Visual Flow Builder

Create intuitive, branching conversational workflows with no coding required. Direct users through menus, collect details, and automate complex journeys.

- ✓ Drag-and-Drop Node Interface
- ✓ Conditional Logic & Buttons
- ✓ Auto-Lead Qualification

AI Smart Chatbots

Harness modern Generative AI to understand natural language customer questions, consult company knowledge bases, and provide accurate 24/7 answers.

- ✓ Flowise & OpenAI Integration
- ✓ Contextual Natural Language
- ✓ Seamless Human Handoff

Multi-Agent Team Inbox

Allow your entire sales and support teams to work from a single WhatsApp number. Assign conversations to specific agents, add internal notes, and use canned replies.

- ✓ Native WhatsApp-style UI
- ✓ Role-based Team Permissions
- ✓ Quick Canned Responses

Audience & Contact Manager

Import and export contacts effortlessly via XLSX/CSV spreadsheets. Segment your audience using tags and dynamic custom variables (e.g. {{name}}, {{city}}).

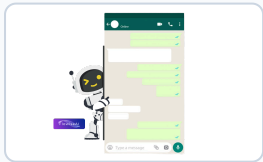

- ✓ 1-Click XLSX Bulk Import/Export
- ✓ Custom Variable Personalization
- ✓ Tag-based Audience Groups

REST APIs & Webhooks

Send transactional WhatsApp notifications (OTPs, order confirmation, shipping tracking, invoice downloads) directly from your app, CRM, or e-commerce shop.

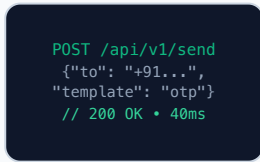

- ✓ High-Speed REST API
- ✓ Real-time Event Webhooks
- ✓ Comprehensive Documentation

Autonomous AI Bot Configuration

Connect business knowledge bases and documents to Flowise and OpenAI for 24/7 autonomous query resolution.

- ✓ Flowise AI
- ✓ OpenAI GPT
- ✓ Webhooks

Developer REST APIs & Webhooks

Trigger automated OTPs, abandoned cart recover alerts, and order tracking notifications with high-throughput API endpoints.

- ✓ REST API
- ✓ Webhook Events
- ✓ Shopify & CRM

Ready-to-Deploy E-Commerce, CRM & ERP Connectors

Bi-directional webhooks and native triggers for abandoned cart recovery, order dispatch, and leads.
